Read about Mary's summer holidays- PART 1

Mary is 10 years old and always spends her summer holidays with her parents in Spain. Last year she and her family went there, too. They didn't want to spend a lot of money, so they booked a cheap hotel near the beach. It was a very nice hotel and the people there were very friendly. Mary soon found other kids she could play with. Every day they went to the beach and she enjoyed building sand castles and playing in the water with her new friends. One evening they went to a town nearby where they went to a fancy restaurant. Mary ordered pizza and her parents ordered paella, the famous Spanish dish. Afterwards they went through the old streets of the town eating icecream. Mary liked the town but she liked her hotel near the beach much more. She thought that the people in the hotel were much more friendly than the people in the town and she was glad that her parents had booked the cheap hotel. After twelve days they went back home again.
